

Go boldly.  
All-new Kia Sorento

Movement that inspires

# Go boldly in the all-new 7-seat Kia Sorento.

Explore the less-travelled roads in space-age comfort and style.  
Cruise powerfully along mountain passes, tropical coasts and winding rivers.  
Discover what's around the next corner, and the next, and the next.  
Find exciting new stories in unexpected places.  
Do it all with smooth, assured AWD power and unrivalled safety technology.  
Go the way you want, in the all-new Kia Sorento.

## Set your own standards.

Step away from the everyday and admire the design of the Kia Sorento. With its distinctive new contours and wheel arch cladding, body colour door handles with a touch of satin chrome, sleek trim, and side sills, and distinctive daylight opening graphic, this car perfectly combines on-road sophistication with off-road thrills while at the same time producing lower emissions.

## Make an instant impression.

The rear design of the Sorento features new light technology with striking vertical LED tail lamps. A sporty rear skid plate and eye-catching garnish, along with an integrated rear wiper, give the Sorento an impressive profile as it pulls away.

## Style from the inside.

Your Kia Sorento says as much about you inside as it does out. Black leather seats feature a black one-tone detail colour complemented by a black interior headlining.

\*Model dependent

The image shows the interior of a Kia Sorento, viewed from the passenger side looking towards the driver's seat. The rear seats are folded down, and a surfboard with a blue and orange striped pattern is lying across them. The car's interior is dark, and the sunroof is open, revealing a bright sky. The view through the front windshield shows a coastal landscape with a blue ocean and a rocky shore under a clear sky. The dashboard and center console are visible in the foreground.

## Do your own thing.

Open wide and imagine the possibilities. The Sorento never shies away from adventure or the city with versatility and flexibility to match. Easily configured into a five-, six- or seven-seater layout, it offers the ultimate space and comfort with the individually sliding and one-touch remote- folding 60:40 splitting rear seats (50:50 for the third row). Whoever is travelling with you can take advantage of space and comfort, and there's even manual air conditioning for third- row passengers to make their ride as enjoyable as yours. After all, the Sorento is designed to work for you and everyone with you.

# Maximise your options

When your head says, "let's push boundaries", the Sorento says, "let's do it in style". That's why you'll find the ultimate in comfort, space, and flexibility wrapped inside its bold exterior design.

2<sup>nd</sup> row folded fully flat

2<sup>nd</sup> row partially folded

3<sup>rd</sup> row folded fully flat and 2<sup>nd</sup> row partially folded

3<sup>rd</sup> row folded fully flat

3<sup>rd</sup> row partially folded

## Seat split options.

Whatever you've got planned and whatever you want to carry, the Sorento comes well prepared.

## Economical boot capacity with second-row one-touch remote folding.

The Sorento can be transformed quickly from five seats to seven seats, and easily reconfigured to create a generous luggage hauler or explorer with up to 910 litres of luggage space. For easy folding of the second-row backrests straight from the tailgate area, you'll find two one-touch remote-folding buttons, one for the left and one for the right, to make it quick and straight forward.

## Stay constantly connected

From the moment you sit inside the Kia Sorento, you'll discover an array of the latest information and entertainment technology designed to put you in complete control for whatever adventures lie ahead.

### 10.25" Infotainment System.

Select your destination via the highly visible frameless 10.25" touch screen premium navigation system, with Android Auto and Apple CarPlay.

\*This feature is available in SX + SXL models only.

### Bose® premium surround sound system.

Experience the very best in-car entertainment with 12 speakers, an external amplifier, and cutting-edge technology. Transform any stereo or multi-channel audio source into an astounding surround sound experience.

\*Bose only on SXL models.

### Wireless smartphone charger.

Forget cables ... you can charge your mobile phone wirelessly and effortlessly by placing it on the charging pad at the front of the centre console.

\*This feature is available in SX + SXL models only.

### USB Ports and Power for all.

The first-row seatbacks have integrated USB charging ports for the use of first and second-row passengers. Additionally, the cargo area features USB charging ports on each side for the third-row passengers. What's more, the rear centre console has a USB charge port and 12 V socket as well - perfect for playing games and charging.

### Blind-Spot Collision-Avoidance Assist (BCA).

When you want to change lane, the Blind-Spot Collision-Avoidance Assist system detects any vehicle(s) in your blind spot and alerts you with a warning symbol in your side mirror and on the head-up display inside the car. Should you start to change lane while a car is in your blind spot, the Sorento will automatically apply the brakes to avoid a collision, the side mirror and head-up warning symbols will flash, and an audible alert will sound.

\*This feature is available in SX + SXL models only.

### Blind-Spot View Monitor (BVM).

Designed to improve visibility for blind spots, the BVM uses side cameras so that when you indicate left or right, your instrument cluster will show the view of the road in your blind spot. Indicate left and it will show you the rear view down your left-hand side; indicate right and it will show the right-side view.

\*This feature is available in SX + SXL models only.

### Rear Occupant Alert (ROA).

ROA reminds drivers to check the rear seats when exiting the vehicle with a cluster display message to prevent children and pets from being forgotten in the car.

\*This feature is available in SX + SXL models only.

### Forward Collision-Avoidance Assist (FCA).

Evaluating both camera and radar data from your vehicle, the FCA system analyses information about other cars, pedestrians, or cyclists crossing the road to avoid a potential collision with them. FCA also functions to prevent collisions with vehicles when making a left turn at an intersection. A warning signal appears on your instrument cluster, and maximum braking power is applied if it detects a potential collision.

\*This feature is available in SX + SXL models only.

# Putting you in control.

Whether short or long, it's good to know that on every journey you take, your Kia Sorento is helping to keep you and your passengers safe and secure.

## Lane Keeping Assist (LKA).

At your side to keep you focused: a camera at the front of the car monitors lane markings, and if the driver moves out of the lane unintentionally, LKA alerts you and even steers you back to your lane.

\*This feature is available in SX + SXL models only.

## Lane Following Assist (LFA).

Kia's level 2 autonomous driving system takes a giant leap towards semi-automated driving. In collaboration with Smart Cruise Control, LFA controls acceleration, braking, and steering depending on the vehicles in front. This makes driving in traffic jams easier and safer. The system uses camera and radar sensors to maintain a safe distance to the preceding vehicle and monitors road markings to keep your car in the centre of your lane. LFA works between 0 and 180 km/h.

\*This feature is available in SX + SXL models only.

## All-wheel drive for all-round adventure

The Sorento's all-wheel-drive technology is designed to make every drive and adventure more comfortable. Innovative, continuously active all-wheel drive ensures the vehicle maintains excellent traction on rough, loose, or slippery surfaces and helps improve lateral stability when cornering. And with the new Terrain Mode Select function, you can easily stay in control by switching between Drive mode and Terrain mode

# Drive with passion.

Go your own way with the Kia Sorento 2.2 CRDi diesel engine, available on both the 2WD and AWD models.

## Drive Mode Select (DMS).

The new automatic transmission offers a choice of drive modes that allow you to customise the powertrain's responses to driver inputs, enhancing your fuel economy or acceleration. The Sorento combustion diesel model offers four drive modes, Eco, Comfort, Sport, and Smart. The Drive Mode Select system also adapts the weight of the rack-mounted power steering system for more relaxed or more immediate, engaging steering responses.

## Terrain Mode Select (TMS).

The Terrain Mode Select system puts excitement at your fingertips, offering a smooth transition between Drive modes (Eco, Comfort, Sport, Smart) and Terrain modes (Snow, Mud, Sand). TMS only comes with AWD (all-wheel drive). Snow mode limits wheel slip on icy or snowy roads to ensure stability, while Mud mode allows for more aggressive torque application while limiting transmission upshift, helping wheels to spin to maintain momentum in mud. Sand mode prevents wheels from digging into sand by distributing optimal levels of torque to each wheel.

## Rotary gear shift dial.

Located centrally and within easy reach, the rotary dial operates using shift-by-wire technology, enabling effortless gear shifting. Just as importantly, from a safety perspective, it will automatically shift to the parking gear P if the driver forgets to do so.

## Dual-clutch transmission (DCT).

The Sorento 2.2 CRDi comes with an eight-speed dual-clutch transmission, which results in lightning-quick and incredibly smooth gear changes to give a more dynamic driving performance.

## Paddle shifters

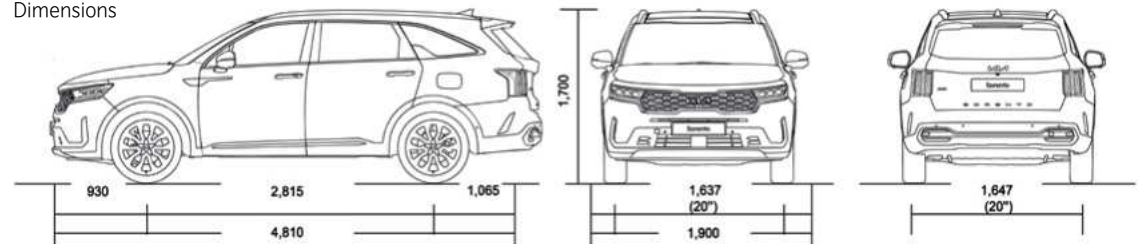

Refined, chrome-finished paddle shifters coordinate with the rest of the cabin's design and allow you to change gears swiftly without taking your hands off the steering wheel. They also boost driving dynamics, making it effortless to increase torque faster while staying in control.
